

Brachyglottis **Walberton's®** **Silver Dormouse**

INTENSE SILVER FOLIAGE

Origin: bred in the UK

Protection status:

EU and UK PVR granted

EU and UK Trademark

Variety name: Brachyglottis WALBRACH

Benefits of this variety:

- Intense silvery grey foliage—much more silver than Sunshine or Dunedin.
- Leaves are white on underside.
- Plant keeps its leaves all the way to the floor—doesn't get a "bare bottom".
- Can be used as a shrub or patio plant.

Characteristics:

- Height: 90cm
- Width: 120cm
- Flowering time: June and July.
- Foliage: intense silver, white underside.
- Habit: neat and bushy.
