

Lonicera japonica

Pink Aperitif

AMAZING YOUNG FOLIAGE

Origin: bred in the United Kingdom

Protection status: EU PVR applied for

Variety name:

Lonicera japonica CROWTHLON

Benefits of this variety:

- Selected stable mutation from Lonicera japonica repens.
- Amazing young foliage colour.
- Young growth is heavily flushed with pink and cream—recalling Actinidia kolomikta.
- Foliage matures to normal green.
- Flowers appear before foliage fades—excellent combination of colours.
- Scented flowers flushed with red.

Characteristics:

- Height and vigour typical for the species.
- Foliage: brightly coloured with pink and cream when young, fades to normal green.
- Habit: vigorous climber.

Wholesale suppliers:

- Biotope45
- Seiont Nurseries
