

Pelargonium interspecific **GardenStar™** **Flame Scarlet** **Flame Violet**

AMAZING FOLIAGE

Origin: bred in the USA

Protection status: breeder's rights asserted

Variety name: Pelargonium GardenStar™
Flame Scarlet and Flame Violet

Code number:

G17-003 and G17-004

Benefits of this variety:

- Interspecific Pelargonium hybrid.
- Self-cleaning.
- Cascading habit with lots of branching—ideal for containers or baskets.
- High cutting yield.
- Good rooting performance with bottom heat.
- Cold-hardy, continuing in flower outdoors until very hard frosts.
- Strong and vigorous plants fill containers and landscapes quickly.

Characteristics:

- Gold-leaf, dark-centred dark chocolate leaves have a bright gold marginal ring, and resemble a heuchera in coloration.
- Flame Violet blooms are light violet, with an orange eye.
- Height: 38cm
- Width: 60cm
- Good rooting performance with bottom heat.
