

Pennisetum advena Chelsea

STRIKING FOLIAGE, COMPACT HABIT

Origin: bred in the UK

Protection status:

EU and UK PVR granted

Variety names:

Pennisetum advena Chelsea

Benefits of these varieties:

- Dense richly coloured growth and good plumes of flowers.
- Improved colour.
- Colours well, even under glass.
- More compact habit—get more plants on a trolley!
- Better plants for impulse sales in containers than *P. setaceum* Rubrum.

Characteristics:

- Amazing deep red foliage, becomes darker.
- 45cm
- Foliage is narrower than *P. setaceum*.
- Habit: clump forming. Compact.
- Culture: sunny position, any good well-drained soil. Not winter hardy.
