

Rehmannia Walberton's®

Magic Dragon

HUGE FLOWERS, GREAT HABIT

Origin: bred in the UK

Protection status:

EU and UK PVR granted

EU and UK Trademark

Variety name:

Rehmannia WALREMADRA

Benefits of this variety:

- Very free flowering—many stems per pot.
- Vegetative propagation—uniform product, good cutting yield.
- Fast to finish.
- Very large flowers up to 6cm across—amazing colour, popular with bees.
- Very long flower season—late May until frost. Sterile.
- Neat habit.
- Great garden performance.
- Hybrid between R.elata and R.glutinosa—world first!

Characteristics:

- Flowers May until frost.
- Stronger colour than other forms.
- Foliage: neat green foliage.
- Habit: compact, 60—70cm
- Can be treated as border plant or for summer patio.
