

Ocimum basilicum

GardenZest®

BurgundyBall

STABLE DARK COLOUR

Origin: bred in the United States.

Protection status:
Breeder's rights asserted

Variety name:
Ocimum basilicum G14-056

Benefits of this variety:

- Stable dark purple colour.
- Very few green leaf reversions/mutations observed in trials.
- Good strong basil flavour, similar to Italian Genovese type, but with a sharper, "high flavour" note.
- Very late flowering, so late that it may not flower at all in normal production.
- Excellent young plant vigour.
- Upright loose bushy habit with good branching.

Characteristics:

- Vegetative propagation
- Height: 15cm

Wholesale suppliers:

- Botanics International
- Elsner PAC
